THE TULIP THAT WON A BEAUTY
CONTEST

The Magnificent Farncombe Sanders

Sells for Less than 6c Each

Sold with a Money-Back Bond

ORDER NOW—PAY NEXT FALL

DURING our Tulip show last year, we asked a thousand visitors to cut and bring to our office the five tulips they liked best. The Farncombe Sanders won by a huge majority. This result did not surprise us a bit; for many years the Farncombe Sanders has led all others in popularity. It is the world's best seller among Tulips.

The Farncombe Sanders has a glorious, stupendous beauty. Its color is an intense brilliant scarlet. Its flower is beautifully shaped and giant in size. Its stem is strong and straight, and grows 25 inches high. It is a perfect specimen of Darwin Tulip.

Plant Farncombe Sanders bulbs; plant them in masses, and some time next May they will bloom together in a blaze of glory.

Tulip Time at Elliott's.

Every offer in this book *positively* closes July 1 ~

EARLY in July our buyers sail for Holland to get the pick of the best bulb crops. To place your order after sailing date, is to buy too late; it would then be impossible to fill your order. Your advantages under this method are many: Ours is the Biggest Bulb House in the World. We import on such a large scale that we can and do sell the world's finest, super-quality, named bulbs at prices lower than are charged for nameless, second rate ones.

As we deal with scientist-specialists in each variety, rather than with ordinary growers, you can be certain that every Elliott bulb is exactly as named and described, that every bulb is fresh and healthy, and that every bulb has reached its full maturity and is ready to produce its finest flowers.

THE Elliott Money-Back
Bond protects you to the
limit. October is planting time.
We make no deliveries until
the bulbs should go into the
ground, so we do not re-
quire payment until
delivery time.

As you go through this catalog, you will find a greater variety of bulbs than any retail store could possibly carry. But, better than this, you will find Elliott bulbs described with an accuracy of detail that is impossible to the average clerk. So, when you put an Elliott bulb into the ground, you know exactly what kind of a flower it will bring forth.

Remember Elliott's Super-Quality Bulbs cost less than nondescript ones, remember that we **import to your order**. Your bulbs will be selected and packed in Holland and will be shipped to you immediately upon their arrival in this country next fall, perfectly fresh, double-tested, and in the best possible condition.

But you must be prompt; your order must reach us by July 1st.

The Darwin Tulip Garden at Elliott's.

Giant Darwin Tulips

Flower in Late May

GORGEOUS, flaming, regal beauty strong, fine lovely blooms . . . on tall, sturdy, stately stems. No wonder the Darwin is the best liked of all Tulips; no wonder it is the favorite of those who have neither the time nor the inclination to work long and hard in their gardens.

All Tulips, but especially Darwins, will thrive anywhere, in any kind of soil. And while a little care is desirable, Darwins will do surprisingly well even when neglected.

After-glow.

So, Darwin Tulips are ideal for the beginner; for the man with his first garden, who is troubled by the doubts and fears of inexperience.

Darwins produce vivid, striking color effects; they make an excellent special garden, or a solid bed along a boundary line. Massed in borders in front of shrubbery and hedge, they are a joy to all beholders.

For best effects allow four bulbs for each square foot to be planted.

Golden Age. In 1925 our president saw on grounds of the great Dutch Hybridist Tuerbergen the first showing of the marvelous new yellow Darwin Tulip, Golden Age. Then there were just 30 bulbs in the world and they were priced at \$385.00 apiece. Mr. Elliott was so impressed with the marvelous beauty of this new creation that he immediately ordered his Dutch growers to produce it as rapidly as possible so that it might be introduced to the flower lovers of America. Not until this year have the stocks been large enough that we dared to offer it to our customers. TO many beginners, Tulip colors are alike and equal; red is red, pink is pink, and blue is blue. But when the amateur graduates into the expert's class, he is attracted only to that which is superfine. He seeks the subtle differences in texture, in color and light reflections. To him these qualities are priceless.

This Graduate's Hand Picked Darwin Collection has been selected from blooming bulbs, by experts under the direction of Mr. Elliott. It will satisfy the most exacting connoisseur.

New Hybrid Tulips

An Achievement in Rare Colors

(FLOWER IN LATE MAY)

THIS Tulip is the scientific victory of a Dutch scientist. He has accomplished the impossible; the pure white, and the pure yellow. To the artist-gardener, this accomplishment has satisfied a yearning long considered hopeless. To the tulip lover, who is more interested in beauty than in science, the New Hybrid provides a color range hitherto impossible; it gives you the rainbow; all the colors of the sky and the spectrum to play with.

As the New Hybrid is a blood relation to the Darwin and the Breeder, it combines all the desirable qualities of both, and more. It thrives everywhere; it is healthy and strong and its blooms are large and lovely. It is definitely in the Giant class. It is more desirable, because concentrated in one flower, there are color combinations impossible in the Darwin or Breeder. For several years, the New Hybrid will be a semi-rare bulb, for it is a new bulb. So, its price is somewhat higher than those that are plentiful.

Imagine having tulips like these for cut flowers in one flower, orange, red, deep red, brilliant orange, black and yellow—in another, bronze and gold—and in another, lilac and white. But read the descriptions and envision the beauty the New Hybrid will bring to your garden.

For best effects allow four bulbs for each square foot to be planted.

Yellow Giant.

Marjorie Bowen.

First Choice

Among the Hybrid Tulips

MARJORIE BOWEN

When the Dutch Bulb Growers Export Association informed us that the lovely Nectar had been completely exterminated in carrying out the crop destruction orders of the Dutch government; our president raved in anger. It is true, of course, that Marjorie Bowen is more beautiful and more desirable in every way but Marjorie Bowen is more expensive than Nectar was. These Tulips are so exquisitely beautiful that one or the other should be in every garden and now persons who cannot afford Marjorie Bowen must do without. Marjorie Bowen has beautiful deep carmine-pink flowers, slightly reflexed and graceful in form. Incomparably the finest of its color. Each, 25c; doz., \$2.20; 100, \$14.00.

Breeder Tulip Garden at Elliott's.

Majestic Breeder Tulips

IN their giant size, their robust growth and their sturdy health, Breeder Tulips are identical with Darwins; even to their time for blooming. And like the Darwins, they are ideal for the beginner as well as the professional.

The only difference between the two is in the color range. Darwins have a flaming beauty, while the Breeders run to a wide, rich variety of pastel shades.

Read the descriptions, which follow, and see how easy it is to have a Tulip Garden far from the ordinary, in its unusual and delicate beauty.

Among the Breeders are royal purples tinged with golden bronze . . . lavender, violet, primrose and glowing bronze, all in one flower . . . in another, a marvelous blending of brown, lilac, yellow and bronze . . . and so they run; color harmonies, so lovely, and in such variety that every description makes happy reading.

It is fortunate that Breeders and Darwins grow alike and bloom at the same time. For when planted together, the result is wonderful. The adjacent illustrations will give you good ideas of these happy combinations.

For best effects allow four bulbs for each square foot to be planted.

Louis XIV.

Louis XIV

~the KING of the BREEDERS

When we first saw this royal purple and gold marvel we proclaimed it the most beautiful Tulip in the world. Since then our judgment has been confirmed over and over again. As a class, the Breeder Tulips are exquisite beyond description. Yet at our Tulip Show more people commented on this wonderful Tulip than on any other Breeder.

When we first met Louis XIV the bulbs cost \$50.00 each. Now years of successful, scientific growing has increased the supply to where they may be, as they should be, in every American garden.

THE lovely colors and shades that fill the sky just before twilight . . . the delicate, peace-bringing pastel tints that come with the ending day . . . these hues are the inspiration for this Special Collection of Breeder Tulips.

Instead of vivid, vigorous, strong colors, here you have a soft, gentle glow of dainty beauty; the fragile beauty of refinement.

And with all this porcelain-like beauty, the bulbs are so virile and ruggedly healthy that they will thrive even if neglected.

The New Mendel Tulips

(Flower in Late April)

FOR those who want to be in the advance of things, for the gardener who takes pride in having tulips others are not likely to have, for the man who likes to introduce the new and unusual to his neighbors, here is the New Mendel.

It is the newest thing in tulips, and the present vogue in smart European Society. The strain is new, the bulbs are very scarce. The New Mendel has not been generally tested in America, but Mr. Elliott saw them in Holland, and selected a few of the best varieties.

We have tried out these varieties in our own fields; so we are satisfied that they will thrive in this country. **We do not hesitate to sell them with our Money-Back Bond.**

The New Mendel is unquestionably the Tulip of the future. Its blooms are as big as the Darwins, it has the same brilliant color range, the same robust health, but its own distinctive and beautiful shape. Also, it blooms several weeks ahead of the Darwins, and **can be grown in the house in winter months.**

For best effects allow four bulbs for each square foot to be planted.

Bunch-Flowered Tulips

The Sensation of the Tulip Show

THOUGH we had seen and admired these tulips in Holland, until recently we had not had an opportunity to test them under American conditions. Last year we exhibited them for the first time in our Tulip Show where they created a profound sensation. With hardly an exception every order booked at the Tulip Show included the bunch-flowered tulips (Tulipa Multiflora).

The standard tulip, as you all know, produces one flower to the bulb. The bunch-flowered tulips, growing to a height of two feet, produce from four to eight full-sized tulip flowers on each stem. Not only are the colors lovely but the effect is an entirely new development from anything heretofore seen in tulips.

Late Show Tulips

The Tulip of Romance and History

(FLOWER IN LATE MAY)

WHEN Knighthood Was in Flower, this tulip grew in the Queen's garden. It comes down to us from before the days of the Tudors. For centuries this was the only kind that grew; you could get no others. In Colonial days, the colonists who came to America, brought bulbs like these to gladden their pioneer homes. They are stately and desirable, and are exactly right in the garden that surrounds a house of formal architecture.

For best effects allow five bulbs for each square foot to be planted.

English Garden Tulips ~

(FLOWER IN MAY)

CENTURIES of breeding are behind Old English Garden Tulips (Cottage Tulips). They have every attribute of their ancient and aristocratic lineage. Their shapes are many; they vary from the long, pointed, reflexed sort to the round, cup-shaped variety.

But all have the beauty, the grace, the elegance that come from generations of careful breeding. And with this careful breeding have come sturdy permanence, healthy growth and ever-satisfying beauty.

While some Old English Garden Tulips have long stems and large blooms, others do not; the slender, daintily shaped blooms have shorter stems. So, some should not be planted in masses; they make a better show when they have a background . . . in front of shrubbery, among perennials. They are charming among rose plants, as they bloom before the roses do.

Old English Garden Tulips give you the opportunity to fill your spring garden with many delightful beauty spots. Read the descriptions carefully; they will help you a lot in making your selections.

Would you like sweet-scented Tulips? Here are some. Do you want the colors of your Tulips to harmonize not only with them-

selves, but also with their surroundings? Your wish can be gratified, for the color range is wide: single colors . . . soft, delicate, beautiful blends and flushes . . . vivid, strong, contrasty colors . . . from one to six shades in a single flower.

*For best effects allow five bulbs
for each square foot to be planted*

Alaska. A wonderfully beautiful clear bright yellow Lily-flowered Tulip on 25-inch stems. Nothing could be more lovely. Doz., \$1.10; 100, \$7.50.

ELLIOTT BULBS PRODUCE A BEAUTIFUL GARDEN

The Patrician of Bulbs

Brightness. Outside petals brilliant crimson; inside brilliant scarlet. The brightest and most showy of the Cottage Tulips. \$1.20 per doz.; \$8.50 per 100.

Columbus. Clear yellow with broad red stripe through the center of petals. A huge flower and very showy. \$1.35 per doz.; \$9.50 per 100.

ELEGANS ALBA. Large, white flower of exquisite gracefulness, each petal reflexing and margined with rosy carmine. One of the most lovely Cottage Tulips in existence. Height 20 inches. \$1.85 per doz.; \$12.00 per 100.

ELLEN WILLMOTT. One of the finest Cottage Tulips. Flowers very large, exquisitely shaped, of a soft creamy yellow, deliciously fragrant. Height 18 inches. 95c per doz.; \$6.50 per 100.

Fairy Queen. Soft rosy heliotrope, suffused with salmon-yellow. A very large flower, with a lovely color. Height 20 inches. 90c per doz.; \$6.25 per 100.

Flava. Lemon-yellow; large, beautiful flower on a tall, stiff stem. A fine variety to plant among the pink-lavender and lilac Darwin Tulips. Will remain in bloom longer than almost any other Cottage Tulip. Height 25 inches. \$1.45 per doz.; \$10.00 per 100.

Fairy Queen.

GESNERIANA SPATHULATA. For bedding out in masses it deserves to be largely grown. Height 18 to 24 inches. Flowers of enormous size, on long, graceful stems. Color rich crimson, with glittering blue-black center. The demand for this grand Tulip has been so great that it is very difficult to get flowering bulbs. To be sure of getting bulbs that will bloom, we pay a premium in Holland for guaranteed bulbs. This makes them higher priced, but our bulbs will bloom satisfactorily.

\$1.10 per doz.; \$7.50 per 100.

Gesneriana Ixioides. Beautiful yellow, with black center. \$1.00 per doz.; \$6.75 per 100.

Glare of the Garden. Immense scarlet flowers. \$1.05 per doz.; \$7.25 per 100.

Grenadier. Blazing orange flowers. Often 10 to 12 inches across. Very best of its color. \$1.00 per doz.; \$7.00 per 100.

Hammar Hales. Golden brown, suffused with old rose. Inside apricot with yellow edge and green base. A very long, beautiful flower. Height 24 inches. \$1.00 per doz.; \$7.00 per 100.

Illuminator. Clear yellow, flamed deep orange. A very large flower with a striking color. Very effective when planted among shrubbery or evergreens. Height 25 inches. \$1.10 per doz.; \$7.50 per 100.

Innocence. One of the very few pure white Cottage Tulips and by far the best. A large flower of fine form and stately bearing. Height 20 inches. \$1.25 per doz.; \$9.00 per 100.

INGLESCOMBE PINK. Salmon-pink; blue base; very brilliant. 90c

Avis Kennicott.

ENGLISH GARDEN TULIPS—Continued.

Inglescombe Scarlet. Brilliant scarlet; enormous flower. 90c per doz.; \$6.25 per 100.

INGLESCOMBE YELLOW. Glossy canary-yellow. The large, globular flower has the true shape of the Darwin Tulip, hence it is called the Yellow Darwin. 85c per doz.; \$5.25 per 100; \$47.00 per 1000.

JOHN RUSKIN. Deep rose-salmon, edged pale yellow. Inside lilac suffused with soft rose and yellow margin. Very long flower of exquisite beauty. We recommend it highly. Height 16 inches. 95c per doz.; \$6.50 per 100.

La Merveille. A magnificent variety, with large, sweet-scented, orange-red flowers. 95c per doz.; \$6.25 per 100.

Mrs. Moon.

Marcellina. The improved Sirene. It would seem impossible to improve the delicate and lovely Lily-flowered Sirene; nevertheless the Dutch Tulip breeders have done just that. The pink of Marcellina is even more delicate, the lighter edge even more refined, the flower larger and sturdier and Marcellina is, of course, Lily-flowered. 25c each; \$2.20 per doz.; \$14.00 per 100.

Miss Blanche. The very finest pure white Cottage Tulip. \$1.00 per doz.; \$7.00 per 100.

Moonlight. New. Light, soft yellow, enormous flower. \$1.00 per doz., \$6.75 per 100.

Mrs. Moon. Pure yellow, large. The best of all yellow Late Tulips. Sweet scented. \$1.00 per doz.; \$6.75 per 100.

Imported Dutch Bulbs

Legal Minimum Prices for 1934

In an attempt to save the bulb industry from complete ruin, the Government of the Kingdom of the Netherlands destroyed 40% of the current crop. It also fixed a price for the first grade, the second grade, the third grade and the fourth grade. Since every case of bulbs must be inspected and certified by the Dutch Government before it can, under the law, be admitted to the United States, there is no possibility of "chiseling." If in the past an American bulbhouse has been in the habit of distributing the top grade of bulbs, it must either pay the legal minimum price for the top grade or lower its quality. We have elected to maintain our quality.

In the destruction of bulbs by the Dutch Government many varieties have been exterminated entirely and will never again be available.

STABILIZATION OF THE DOLLAR

The legal Dutch prices are fixed in guilders. As authorized by Congress President Roosevelt has revalued the dollar at 60c in gold. The guilder, formerly par at 40c, has an exchange value at this writing of 67c.

The stabilization of the dollar only effects the prices paid in Holland. Ocean freight, ocean insurance are still payable in dollars and, of course, the rates of duty fixed by the Smoot-Hawley tariff are still in force.

NORTHWESTERN GROWN NARCISSUS LAWFUL MINIMUM PRICES

The Secretaries of Agriculture for the States of Washington and Oregon have fixed minimum prices on Northwestern grown bulbs for the season of 1934. Four grades are legally recognized; first, second, third and fourth. These minimum prices do not apply on bulbs grown in other sections. The better bulb houses, ourselves included, will, as usual, distribute only top size Northwestern Grown Narcissus.

SENDING POSTAGE STAMPS IN PAYMENT OF BILLS

The United States Post Office Department objects bitterly to the paying of accounts with postage stamps. This practice means that Postmasters in offices like Evans City must do much of their work without payment, which obviously isn't fair. The Postmaster General has requested us to do what is possible to eliminate this abuse. Won't you please co-operate with us in helping to give postal employees a square deal?

Elliott Nursery Co.

The Gay and

(FLOWER IN APRIL)

LIKE the robin, these Tulips gladden the heart with the news that spring has really arrived. They are among the first flowers to bloom, after the drab barrenness of winter; their gay glowing colors are welcome carriers of happiness.

Early Tulips seem to belong in the front of the house. Group them on either side of the front door, along the entrance walk, and here and there, wherever you would like a beauty spot.

As you read the descriptions of the different varieties, you will see that Nature has colored them just right to make them true harbingers of the gladness of spring . . . rose-pinks, various shades of yellow, rose and lilac, cherry-red, gold, primrose, violet, and so on.

These Early Tulips bloom about 40 days ahead of the late varieties, so they flower and go, in abundant time for you to replace them with other plants.

Our Money-Back Bond does not apply on these in the Far South. The strong sun makes them bloom too soon; the flowers come when the stems are just an inch, or so above the ground. In other latitudes this "forcing" does not happen, and our Money-Back Guarantee does apply.

For best effects allow five bulbs for each square foot to be planted.

Rare and Exclusive TRIUMPH TULIPS

(FLOWER IN LATE APRIL)

THIS is the founder of a new race of Tulips, and a smashing victory for a group of great Dutch Hybridists. It is the result of many years' careful development. For many years, this—THE TRIUMPH—will not be available for general use.

Eventually, this variety will supplant the Darwin in popularity, but for a long time it will be rare and exclusive. Here are its advantages: it has the virility, the form and the substance of the Darwin, but blooms five or six weeks earlier. Though an early bloomer, it has the giant size and long stems of the late varieties. It is easily forced. Because of its newness and rarity, the color range is limited; its colors, though, are unusually beautiful, especially for house decoration.

For best effects allow five bulbs for each square foot to be planted.

Double Varieties of Early Tulips

(FLOWERS IN APRIL)

WHETHER one shall plant the single Early Tulips or the double Early Tulips depends on whether one prefers delicate race or massive strength. Of the two the double Tulips are heavier and more sturdy and last longer in bloom. The color range of both groups is almost identical. However, the double Tulips are about a week later coming into bloom.

Like the single Early Tulips, the double kinds are best grouped at the entrance, though because of their heavier texture they are very effective planted in beds by themselves. They will thrive with very little attention and are, therefore, specially recommended for cemetery planting.

All double Early Tulips may be grown in the house during the winter months. See page 45.

For best effects allow five bulbs for each square foot to be planted.

Spring's First Flower — The Crocus

(FLOWERS IN MARCH)

BETWEEN the melting of winter's last snow and the blooming of spring's first Tulip, a flat and barren landscape is an ordeal for sensitive people to endure. And it is quite unnecessary when Crocuses are available to fill in the void. It would seem almost foolish to deprive oneself of the joy that Crocuses bring. Even if one were indifferent on one's own account, isn't it selfish to refuse to add beauty to the world when beauty may be had at so little cost?

Crocuses, the earliest of all spring-flowering bulbs, are also the cheapest; and there is nothing else to take their place. If the foliage is not cut off they will last indefinitely. They should be used for edging tulip beds or any garden bed or shrub border. Scattered through the lawn, they will gleam like jewels against the verdant background.

For best effects allow seven to nine bulbs for each square foot to be planted.

Fragrant Paper-White NARCISSUS

EVERYONE who likes growing things feels the need of flowers when winter comes. That is why people are so willing to pay high prices to florists. Many who have tried to grow plants indoors have given up, because of poor or indifferent results. For satisfactory success, some plants require much care, and expert knowledge. Others cannot be made to grow at all indoors. But the Paper White Narcissus cannot fail.

Experience Unnecessary for Abundant Success

Though you have never watered a blade of grass or planted a single seed, or cared for a single plant, the Paper-White Narcissus will grow for you. Or, rather, it will grow without you. All that is needed is the bulbs, a bowl, some pebbles, a little water, and no attention whatever.

DAFFODILS *that*

ELLIOTT'S BONDED

IT is with great pleasure and satisfaction that we can now offer our Narcissus with every assurance that they will give abundant satisfaction. And we unhesitatingly back this statement with the Elliott Money-Back Guarantee.

Some years ago, the government prohibited the importation of Narcissus. This threw upon American growers the task of developing their own bulbs. Extensive and conclusive experiments proved that the only worth while bulbs were those grown in the Northwest. Narcissus bulbs developed in other than a climate which has long, cool, moist springs, are unreliable and unsatisfactory.

You can pin your faith to Elliott's Narcissus.

Every bulb is guaranteed to be Northwestern Grown, sturdy, healthy, and virile; they are every bit as good as the finest Holland bulbs.

So, once again you can have this exquisitely lovely flower at its very best. Plant them in your rockery and among your perennials, also at the edge of your shrubbery. They will last indefinitely and will bloom year after year.

All Elliott Narcissus will grow indoors during the winter months.

A Bargain in Beauty The Emperor Narcissus

For the Garden in Spring—For Indoors in Winter
Order Now—Pay Next Fall—Sold with a Money-Back Bond

THE appeal of the Narcissus is in its gentle, dainty beauty; a beauty that is expressed in its every detail. The Emperor is one of the largest and finest varieties. Its trumpet is a deep golden yellow, its perianth (wings or petals) an exquisite primrose.

For the spring outdoor garden, and for winter blooming in the house, the Emperor is ideal. It is easy to grow and does exceedingly well in almost any location, shady or sunny, or in moist or dry ground.

Emperor Narcissus are a permanent investment in ever-increasing beauty and value; for the bulbs increase in number and produce more beautiful flowers, year after year. So these advantages, coupled with our Bargain Price and our Free Fertilizer Offer make this an irresistible opportunity.

These collections must be ordered as stated; we cannot make changes or substitutions.

The Lovely Hyacinth

(Flowers in April)

DELICIOUSLY scented, delicately beautiful in every detail, quietly refined and formal in shape and color, the graceful, dignified Hyacinth has a winning allure to those who are attracted to the elegance of simplicity.

To such people, spring would not be spring without their beauty spots of hyacinths. It is significant that children love them, and that millions of Hyacinths find themselves on the altars of churches.

Study the photographs of Elliott's choice Hyacinths, then read the descriptions of our many varieties.

First Size Named Hyacinths

Prepared Dutch Hyacinths

(To bloom for Christmas)

The natural, untreated Hyacinth grown in the house will not bloom until February. These bulbs are given a special heat treatment in Holland which causes them to bloom about two months earlier than the untreated bulbs and to produce larger and finer flowers than the untreated bulbs develop.

Elliott's Superb Bedding Hyacinths

THESE special Bedding Hyacinths are selected for uniformity in color, height and time of bloom and are especially packed for those who require a higher grade bulb and can be furnished in a mixture. They may be used for formal garden planting with every assurance that when they are in bloom, the design will not be ruined by having flowers of unequal height, differences in blooming time, weak stems or color clashes.

Single Mixed Hyacinths

A Real "Buy"

FOR those who want a real flower at little cost, Elliott's Single Mixed Hyacinths are impossible to beat. Considering their price, these are really unusual bulbs, and while they should never be forced, you will find it pretty hard to stop their growth if you plant them outside. We anticipate a heavy demand for this bulb this season.

Miniature Hyacinths

For Indoor Growing

LONG experience has convinced most garden lovers that Roman Hyacinths are much too high priced for their mediocre quality. Instead experienced planters are using the Single Small Forcing Hyacinth with results that are highly gratifying. Costing less than half the price of Roman, they give a flower of about the same size with larger bells and a great deal more strength. We are offering in this section only those varieties which produce the finest flowers and force easily, blooming early in January. This bulb was one of our best sellers last year.

NAMED TULIPS

Elliott's Hand Made Mixtures

Each Mixture Guaranteed to Contain 10 Distinct Varieties—All Named in This Catalog

THE USUAL method of preparing a mixture of anything is to take so many of this, so many of that and so many of the other, throw them in a pile, and mix them with a wooden shovel. A mixture so made is a perfectly honest mixture, but what an individual customer gets out of it is obviously the result of chance.

FOR ADVANCE ORDERS ONLY, we will prepare five hand-made mixtures. Our new bulb warehouse, the finest thing of its kind in the world, contains a thousand bins. Every day, as required, ten employees will count out five bulbs each from ten named stocks and dump the fifty bulbs into one bin, repeating the operation until all of the bins are filled. EACH BIN WILL CONTAIN FIFTY BULBS AND NO MORE. Consequently to every customer who orders fifty bulbs of one of these mixtures, WE GUARANTEE THAT HE

WILL RECEIVE TEN NAMED VARIETIES, five bulbs of each variety. We further guarantee that all the varieties used are offered in this catalog. We cannot afford, at this price, to pack the bulbs under separate names nor allow the customer to specify what varieties shall be included. The choice must be left entirely to us.

Customers wishing less than fifty bulbs will have their orders counted from one of these bins. EXCEPTING WHERE THE ORDER CALLS FOR BULBS IN MULTIPLES OF FIFTY, we cannot guarantee that they will be filled with equal quantities of the ten named varieties, but it is probable that they will be. To the best of our knowledge and belief no other bulb house in the world has the facilities to prepare mixtures as fine as these and it will probably be years before anyone else can attempt it.

Lilium Auratum.

Lilium Superbum.

The Beauty

The Flower

FROM the earliest beginning of garden literature, the Lily has been highly esteemed. It is the most prized of all flowers today. True, there are easier flowers to cultivate; but perhaps we appreciate it the more for that. Unlike the tulip or the narcissus, which anyone can grow, a perfect lily is rarely produced by accident. It is a result of care and skill. It represents a triumph over conditions that most of our neighbors will not take the trouble to understand.

Japanese Lilies

Because of transportation difficulties, Japanese Lilies frequently do not arrive in time for fall planting, in which event we carefully pack them in sand and store them until spring, when they are distributed.

of the Lily

of the Ancients

Whoever has planted and tended it may indulge a little in the pride of achievement. Yet lilies are not unduly hard to grow. A little study of their native habits, a little attention to the proper choice of varieties, a little effort to give these the degree of sun and shade, of drainage and of moisture to which they are adapted, and they will reward the gardener with miracles of exquisite bloom.

Lilium Regale - For Forcing or Outside Planting

The center of the flower is flushed with yellow, shading to white at the outer edges. Externally the flowers are streaked with brown shaded through the almost translucent petals with a delightful pearly tint. A truly royal Lily and most extraordinarily beautiful. It has the merit of being hardy and as easy to grow as a carrot. It will grow anywhere, under almost any conditions and with no attention whatever. Its height is 4 to 5 feet and it blooms in July. Because of its great beauty and exceedingly easy culture it is the most popular of all the Lilies and the Lily most widely planted. It may also be forced.

Superbum—The Lily that Defies Neglect

Superbum is unquestionably one of the most satisfactory and unusual Lilies. It can be planted in the garden or the meadows; in wet swamps or dry ground; on the edge of the woods or in cultivated ground. It will thrive wherever you put it—and it will grow without care or attention! On top of all this it is truly a superb Lily, as its name suggests; it often grows over eight feet high, producing 20 to 30 orange-red flowers in the one month when flowers are apt to be scarce—July. By virtue of our yearly contract to have 25,000 of these grand Lilies grown especially for us, we are able to offer them at a price low enough to make them available for naturalizing in quantities.

Candidum—The Ancient Easter Lily

The beautiful and historic Easter Lily needs no introduction here, for, although the horticulturists call it Lilium Candidum, it is known all over the world as the Annunciation or Madonna Lily. Notwithstanding its rich beauty, many flower lovers deny themselves this fragrant Lily because of the incorrect belief that it must be planted early in September. At our own nursery we have planted as many as 10,000 in November to get beautiful blooms the following June, when we sold them to wholesale cut-flower buyers for double the price of the original bulbs! Elliott's Candidum bulbs are really the finest that come to America, being grown only in the north of France.

Seven Hardy Bulbs That Flower in March

WHEN the shrubbery is bare, and every landscape is a depressing vista of sombre dreariness . . . when spring is a promise rather than a reality . . . then these seven brave little flowers bring cheer to the winter-weary soul.

Neither snow nor wind, nor rain can deter them from appearing on schedule time. Like mischievous little coquettes,

they wave their cheerful colors to you from under the brown shrubbery or over the edge of the rockery.

Plant them once, and year after year they will come up every March to say, "Here we are, happy to make you happy!"

For best effects allow seven to nine bulbs for each square foot to be planted.

Flowering Bulbs for House Culture

Flowers in the House from Christmas Until Easter

Provided directions are followed and except where stated otherwise, the Elliott Money-Back Bond applies to all Bulbs for indoor growing

WITH only such facilities as every home has, and with about as much trouble as it takes to keep the eight-day clock running, one may, by selecting bulbs in the proper classes, have flowers to bloom in the house all winter. The amount of skill required is so little that a twelve-year-old school girl should be able to do it as well as the most experienced professional. The flowers produced are among the finest known to floriculture and you purchase exactly similar flowers all winter in the florist's shops at three times as much as it would cost you to grow them yourself.

If you are a beginner you will, of course, want some Hyacinths, since there is nothing easier to grow. You may use anything in the first sized named Hyacinths (page 34), the Miniature Hyacinths (page 38), or the Special Prepared Dutch Hyacinths for very early bloom, listed on page 36. Equally easy are the Single Early (page 22), and the Double Early Tulips (page 26). The Triumph Tulips (page 24), grow as easily

as the Early sorts. The Mendel Tulips (page 16), have been developed specially for forcing and are easiest of all to grow in this way. Then there are the Narcissi (page 29), which seem almost to grow themselves. There are also the Lily-of-the-Valley and the Calla Lilies which require hardly enough attention to make the experience interesting.

The Freesias are a little more difficult, though still quite simple. The Lilies require some skill and the beginner should prepare himself for some disappointment the first time he attempts to grow them. Among late flowering Tulips the Breeders (page 12) and the Darwins (page 4) may be forced but to force them successfully requires real skill. Consequently, unless you are sure of your ability you had better stick to early Tulips and not try the Darwins and Breeders.

Force your own flowers this winter. You will save money and have fun doing it.

PERENNIAL LARKSPUR

—most beautiful of plants

BLOOMING all summer, coming up year after year, sending aloft successive shafts of incredible color to a height of five, six, eight feet—it is doubtful if any other plant so superb as Delphinium ever graced a garden.

Few people are aware of the perfection to which this ancient flower has been brought by modern culture, how easily it can be planted and grown, and how lasting a delight the gardener secures who plants Delphinium. If every one knew, tall, hardy Delphinium would be more in evidence everywhere.

* * *

We offer specially selected plants grown from seeds of famous named varieties for autumn planting. Will grow anywhere but do best in rich garden soil. Every imaginable tint and shade of blue, lavender, and purple. We promise you'll find positive joy in their extraordinary bloom. Directions—few and simple—with each shipment.

Elliott's Magnificent Varieties

Improved English Hybrids. Range in color from very light blue to very dark blue, overlaid irregularly with tones of pink and lavender, rose, and lilac. Black spots on pistil and anthers at center of flower. Many blossoms show white secondary petals of white spots at bases of major petals. A wonderful wealth of color variation in the English Hybrids.

Fine Mixed English Hybrids. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

English Hybrids, Extra Selected Varieties. 50c each; \$5.00 per doz.

Belladonna. Uniform light sky-blue. The most universally admired and desired of the solid color varieties. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

Bellamosa (The Improved Formosum). For solid dark blue color, unequalled among Delphiniums—positively the best. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

The Magnificent Amaryllis

A STRANGE AND BEAUTIFUL FLOWER

*For Indoor Winter Growing
Blooms in March*

WHEN Nature sleeps, when the ground is as hard as steel, and when every landscape is bleak and barren, the gorgeous Amaryllis will fill your home with luxuriant tropical beauty.

Picture having flowers like this to help dispel the cheerlessness of winter . . . large, lily-like blooms . . . beautifully formed and colored . . . a color range of *reds* . . . *rose* . . . *crimson* . . . *scarlet* . . . *cherry* . . . and *maroon*.

Each plant will average four big flowers, measuring from 6 to 8 inches in diameter. Occasionally one bulb will produce two stems, with blooms, and occasionally a stem will have five or six flowers.

Astounding Vigor *Amazingly Easy to Grow*

In some respects the Amaryllis is a miracle bulb. It is hardly an exaggeration to say that it cannot fail. Lay a bulb anywhere in a warm room; it will flower. It is best, though, to plant in pots. If you have hesitated about growing flowers indoors because of the doubts and fears of inexperience, the Amaryllis is just for you.

No skill is required, nor will it give you any trouble. All you need do is watch the magic of its growth and beauty.

The Amaryllis is a semi-rare bulb. Heretofore, its price has been too high for it to become generally known. We are happy to announce that we are now able to offer these bulbs at a price so low as to attract thousands of flower lovers. Do not deny yourself the pleasure of having these strange and beautiful flowers. Send your order **Now**, today.

The Elliott GUARANTEE and MONEY-BACK BOND

EVERY bulb in this catalog is guaranteed to be first class in every respect and absolutely true to name and, excepting for Lilies, which are not true bulbs, and perennial plants, every bulb we ship is sold with a Money Back Bond. This means that if you are in any way dissatisfied with results, you have only to tell

us; we will refund every cent you have paid provided your bills are paid within thirty days of shipment. The bulbs will not have cost you a penny. There are no strings to this Bond; it is exactly as stated. In no case, though, shall we be liable for more than the purchase price of the bulbs.

TERMS OF PAYMENT, Etc.

Please read before ordering

HYACINTHS, Tulips, Crocuses, etc. The prices quoted in this list on all Dutch Bulbs, Bermuda Lilies and other bulbs are for advance orders, which must reach us not later than July 1st, 1934. To make these very low prices, we must have our orders in advance, as we cannot take any risk of having stock unsold on our hands. The bulbs will be delivered upon arrival, and need not be paid for until after delivery. Prices quoted include duty and all charges, including freight, expressage, or postage, from Evans City.

Time of Delivery

Bermuda Lilies arrive in August, Roman Hyacinths, Freesias, Candidum Lilies and Paper-White Narcissi in September; Dutch Bulbs, Hyacinths, Tulips, etc., in October. In ordering please state whether you wish your bulbs shipped as they arrive or all in one shipment. In absence of instructions, we will send all bulbs in one shipment, except Japanese Lilies and Lily-of-the-Valley, which will be shipped upon arrival, in November, December, or the following spring. Transportation conditions are still so unsettled that we cannot guarantee time of delivery, but in the event of late delivery, northern orders will be shipped first, and extreme southern ones last.

Shipping Instructions

Please send full shipping instructions. State whether goods are to be shipped by express or parcel post, and by what route. In the absence of instructions, we will ship by whatever method and route we think best. Please print your name and address on your order. Many times it is exceedingly difficult to read these two important points of an order, and a shipment may go astray.

All orders less than \$6.00 in value will be shipped C. O. D. Larger orders shipped on open account when requested.

People unknown to us will please send references with their orders. Those who wish to send cash in advance with their orders will be allowed a discount of five per cent from the prices quoted on this list on all orders made up from this catalog, received before July 1st, 1934.

The earlier orders are given, the better we can have them filled. Some of our customers are now giving us orders to be delivered next spring. Our representative usually sails for Europe early in July and personally selects the stock for all import orders received by July 1st.

Six plants of a kind will be furnished at the dozen rate; fifty or more at the hundred rate, and five hundred or more at the thousand rate. Less than six plants of one kind or variety will be sold only at the single rate.

No request for cancellation can be granted after July 10th, when the final orders are sent to Holland. Import orders taken subject to the failure of the crop.

With each shipment of bulbs we send printed cultural directions, giving full instructions for growing in the house as well as outdoors.

Bulbs and plants can now be sent by parcel post, and when it is advantageous we always do so.

THE MARVELOUS . . .

Clara Butt

Order Now ~ Pay Next Fall!
SOLD WITH A MONEY-BACK BOND

THE Clara Butt towers above ordinary tulips because of its alluring beauty. It is one of the Big Four of the Tulip Kingdom. From its lovely tapering bud, to its exquisite, big, rich full flower, it is an ever-increasing joy.

Officially its designation is salmon-pink, but actually its rare color is exclusively, peculiarly and entrancingly its own. It catches and reflects every variation of light and shade. The Clara Butt is an all-satisfying tulip; it has been preferred by flower lovers through many generations.

Plant this bulb; it is easy to grow, and its health is remarkably rugged. Its strong, straight stems are 25 inches high. Its flower is large, even for a Giant Darwin.
